## Safety Data Sheet

## **Section 1. Identification**

**GHS product Identifier** : Polyguard No Torch<sup>TM</sup>125

Other means of identification : Not available

#### Relevant identified used of the substance or mixtures and uses advised against

Polymer modified bitumen membrane used as a vapor barrier on ducts and pipes.

Supplier's details Polyguard Products, Inc

3801 South Interstate 45 Ennis, TX 75119 Tel: (800) 541-4994

**Emergency telephone number**) CHEMTREC, US 1-800-424-9300 International 1-703-527-3887

with hours of operation) (24/7)

## Section 2. Hazards identification

OSHA/HCS status : While this material is not considered hazardous by the OSHA Hazardous

Communications Standard (49CFR1910.1200), this SDS contains valuable information critical to the safe handling and proper use of the product. This SDS should be retained and

available for employees and other users of this product.

Classification of the substance or

mixture

: Not classified

**GHS** label elements

Signal word : No signal word

**Hazard statement**: No known significant effects or critical hazards.

**Precautionary statements** 

Prevention: Not applicableResponse: Not applicableStorage: Not applicableDisposal: Not applicableHazards not otherwise classified: None known

## Section 3. Composition/information on ingredients

**Substance/Mixture** : Mixture **Other means of identification** : Not available

**CAS number/other identifiers** 

**CAS number** : Not applicable **Product code** : Not applicable

Occupational exposure limits, if available are listed in section 8.

### Section 4. First aid measures

### Description of necessary first aid measures.

**Eye contact** Immediately flush eyes with plenty of water, occasionally lifting the upper and lower

eyelids. Check for and remove any contact lenses. Get medical attention if symptoms

occur.

**Inhalation** Not likely to occur under normal use. Possible exposure to toxic fumes if burned.

Skin contact Wash with soap and water. Get medical attention if symptoms occur.

Ingestion Not likely to occur under normal use. Never give anything by mouth to an unconscious

person. Get medical attention if symptoms appear.

### Section 4. First aid measures

#### Most important symptoms/effects, acute and delayed

Potential acute health effects

Eve contact : No known significant effects or critical hazards : No known significant effects or critical hazards Inhalation : No known significant effects or critical hazards Skin contact Ingestion : No known significant effects or critical hazards

Over-exposure signs/symptoms

Eye contact : No known significant effects or critical hazards : No known significant effects or critical hazards Inhalation Skin contact : No known significant effects or critical hazards Ingestion : No known significant effects or critical hazards

#### Indication of immediate medical attention and special treatment needed, if necessary.

**Notes to physician:** : No specific treatment. Treat symptomatically. Contact poison treatment specialist

immediately if large quantities have been ingested or inhaled.

**Specific treatments** : No specific treatment

: No action shall be taken involving any personal risk or without suitable training. **Protection of first-aiders:** 

## Section 5. Fire-fighting measures

Extinguishing media

Suitable extinguishing media : Use an extinguishing agent suitable for the surrounding fire.

Unsuitable extinguishing media : None known

Specific hazards arising from the : No specific fire or explosion hazard.

chemical

Hazardous thermal decomposition

products

Decomposition products may include the following materials:

Carbon Dioxide Carbon Monoxide

Sulfur oxides Low MW hydrocarbons

: Fire-fighters should wear appropriate protective equipment and self-contained breathing Special protective equipment

apparatus (SCBA) with a full face piece operated in a positive pressure mode.

Special protective actions for fire

fighters

: No special protection is required.

### Section 6. Accidental release measures

### Personal precautions, protective equipment and emergency procedures.

For non emergency personal : Put on appropriate personal protective equipment.

For emergency responders : If specialized clothing is required to deal with the spillage, take note of any information in

Section 8 on suitable and unstuiatble materials.

**Environmental precautions** : Not applicable

### Methods and materials for containment and cleaning up

Spill : Due to the physical state of this material, spills are not possible.

# Section 7. Handling and storage

Precautions for safe handling

**Protective measures** : Put on appropriate personal protective equipment ( see Section 8)

Advice on general occupational

Eating, drinking and smoking should be prohibited in areas where material is handled, hygiene stored and processed. Workers should wash hands and face before eating, drinking and smoking. Remove contaminated clothing and protective equipment before entering eating

areas. See section 8 for additional information on hygiene measures.

# Section 7. Handling and storage

Conditions for safe storage, including any incompatibilities

Store in accordance with local regulations. Store in original container protected from direct sunlight in a dry cool and well-ventilated area away from incompatible materials (see section 10) and food and drink. Keep container tightly closed and sealed until ready to use. Do not store in unlabeled containers.

# Section 8. Exposure controls/personal protection

**Control** parameters

Occupational exposure limits

**Appropriate engineering controls** 

**Environmental exposure controls** 

**Hygiene measure:** 

**Eye/face protection** 

**Skin Protection** Hand protection

**Body protection** 

Other skin protection

**Respiratory protection** 

None

: No special ventilation requirements. Good ventilation should be sufficient to control

worker exposure to airborne contaminats.

: Emmissions from ventilation or work process equipment should be checked to ensure they

comply with the requirements of environmental protection legislation.

: Wash hands, forearms and face thoroughly after handling chemical products, before

eating, smoking, and using the lavatory and at the end of the working period. Ensure that

eyewash stations and safety showers are close to the work station location.

: Safety eyewear complying with an approved standard should be used when risk

assessment indicates this is necessary to avoid exposure to liquid splashes, mists, gases and

dusts.

: Chemical- resistant, imprevious gloves complying with an approved standard should be

worn at all times when handling chemical products if a risk assessment indicates this is

: Personal protective equipment for the body should be selected based on the task being

preformed and the risks involved and should be approved by a specialist before handling

this product.

: Appropriate footwear and any additional skin protection measures should be selected

based on the task being preformed and the risks involved and should be approved by a

specialist before handling this product.

: Use a properly fitted, particulate filter respiratory complying with an approved standard if

a risk assessment indicates this is necessary. Respirator selection must be based on known or anticipated exposure levels, the hazards of the product and the safe working limits of the

selected respirator.

# Section 9. Physical and chemical properties

**Appearance** 

**Physical state** : Solid Color : Black/white : Asphaltic (slight) Odor **Odor threshold** : Not available : Not applicable pН

**Melting point** : Not available **Boiling point** : Not available Flash Point : Not determined **Burning time** : Not determined **Burning rate** : Not determined **Evaporation rate:** : Not applicable Flammability(solid, gas) : Not applicable Lower & upper explosive : Not applicable

(flammable) limits

: Not applicable Vapor density

# 9. Physical and chemical properties

Vapor pressure : Not applicable

**Relative density** : 1.09

Solubility : Insoluble in water Partition coefficient: n- : Not available

octanol/water

Auto- ignition temperature: Not applicableDecomposition temperature: Not applicableSADT: Not applicableViscosity: Not applicable

**VOC** : 0 g/l

## Section 10. Stability and reactivity

**Reactivity**: No specific test data related to reactivity available for this product or its ingredients.

**Chemical stability** : This product is stable.

Possibility of hazardous : Under normal conditions of storage and use, hazardous decomposition products should not be

reactions produced.

Conditions to avoid: produced.
: No specific data.

**Incompatible materials** : Reactive or incompatible with the following materials: Oxidizing materials

Hazardous decomposition : Under normal conditions of storage and use, hazardous decomposition products should not be

**products** produced.

## **Section 11.Toxicological information**

**Information on toxicological effects** 

Acute toxicity : There is no data available

Irritation/Corrosion

Skin: There is no data availableEyes: There is no data availableRespiratory: There is no data available

Sensitization

Skin: There is no data availableRespiratory: There is no data availableMutagenicity: There is no data availableCarcinogenicity: There is no data availableReproductive toxicity: There is no data availableSpecific target organ toxicity: There is no data available

( single exposure)

Specific target organ toxicity : There is no data available

( repeated exposure)

<u>Aspiration hazard</u> : There is no data available

**Information on the likely routes**: Routes of entry anticipated: dermal

of exposure : Routes of entry not anticipated: Oral, inhalation, ingestion

Potential acute health effects

Eye contact: No known significant effects or critical hazardsInhalation: No known significant effects or critical hazardsSkin contact: No known significant effects or critical hazardsIngestion: No known significant effects or critical hazards

## **Section 11.Toxicological information**

Symptoms related to the physical, chemical and toxicological characteristics

Eye contact: No known significant effects or critical hazardsInhalation: No known significant effects or critical hazardsSkin contact: No known significant effects or critical hazardsIngestion: No known significant effects or critical hazards

### Delayed and immediate effects and also chronic effects from short and long term exposure

**Short term exposure** 

Potential immediate effects : No known significant effects or critical hazards : No known significant effects or critical hazards

**Long term exposure** 

Potential immediate effects : No known significant effects or critical hazards : No known significant effects or critical hazards

**Potential chronic health effects** 

General: No known significant effects or critical hazardsCarcinogenicity: No known significant effects or critical hazardsMutagenicity: No known significant effects or critical hazardsTeratogenicity: No known significant effects or critical hazardsDevelopmental effects: No known significant effects or critical hazardsFertility effects: No known significant effects or critical hazardsTarget organs: No known significant effects or critical hazards

**Numerical measures of toxicity** 

Acute toxicity estimates : There is no data available

# Section 12. Ecological information

Toxicity: There is no data availablePersistence and degradability: There is no data availableBioaccumulative potential: There is no data available

**Mobility in soil** 

**Soil/water partition coefficient** 

 $(\mathbf{K}_{\mathbf{OC}})$ 

Other adverse effects : No known significant effects or critical hazards

: Not applicable

## **Section 13. Disposal Considerations**

**Disposal methods** : The generation of waste should be avoided or minimized wherever possible. Disposal of this

product, solutions and any by-products should comply with the requirements of environmental protection and waste disposal legislation and any regional local authority requirements. Empty containers or liners may retain some product residues. This material and its container must be disposed of in a safe way. Dispose of surplus and non-recyclable products via a licensed waste

disposal contractor.

# **Section 14. Transportation information**

**AERG:** : Not applicable

**Regulatory Information:** 

**DOT/TDG/IMDG/IATA**: Not regulated

# Section 15. Regulatory information

**U.S. Federal regulations:** TSCA 8(a) CDR Exempt/Partial exemption: Not determined

### 16. Other information

#### **Hazardous Material Information System (USA)**

#### Health -1 Flammabilty-0 Physical hazards-0

Caution: HMIS® rating are based on a 0-4 rating scale, with 0 representing minimal hazards or risks, and 4 representing significant hazards or risks. Although HMIS® ratings are not required on SDSs under 29 CFR1910.1200, the preparer may choose to provide them. HMIS® ratings are to be used with fully implemented HMIS® program. HMIS® is a registered trademark of the National Paint & Coating Association (NPCA). HMIS® materials may be purchased exclusively from J.J. Keller.

#### National Fire Protection Association (USA) NFPA 704

### Health -1 Flammability-0 Instability-0

NFPA-704 was copyrighted by the National Fire Protection Association of Quincy, MA. This warning system is intended to be interpreted and applied only by properly trained individuals to identify fire, health and reactive hazards of chemicals. The user is referred to certain limited number of with recommended classifications in NFPA 49 and NFPA 325, which would be used as guidelines only. Whether the chemicals are classified by NFPA or not, anyone using the 704 systems to classify chemicals does so at their own risk.
